DIESEL ENGINE OIL

SAE 40

Prime Guard SAE 40 Heavy Duty Engine Oil is formulated using only high quality Group II, severely hydrocracked, high viscosity index, paraffinic base stocks. It is designed to provide superior engine protection for diesel and gasoline engines. Benefits include:

- Keeps engines clean under extreme conditions
- Neutralizes crankcase acids
- Prevents rust & reduces wear
- Contains anti-foam additive

Prime Guard SAE 40 Heavy Duty Engine Oil is primarily intended for both turbocharged and naturally-aspirated diesel engines used in the heavy-duty trucking, mining, construction and farming industries. It may be used in power shift transmissions in which manufacturers recommend a Series 3 super heavy duty (SHD) engine oil. For use in diesel engines where a SAE 40 that meets API CF-2 is specified.

CAUTION: This oil is rated API Service Category SG. It is not suitable for use in most gasoline powered automotive engines built after 1993. It may not provide protection against the build-up of engine sludge.

WARNING: Avoid prolonged or repeated skin contact with used motor oil. Used motor oil has been shown to cause skin cancer in laboratory animals. Thoroughly wash exposed areas with soap and water. KEEP OUT OF REACH OF CHILDREN. DON'T POLLUTE. CONSERVE RESOURCES. RETURN USED OIL TO COLLECTION CENTER.
